CSE 111 – Database Systems

Project Evaluation

Grade each project on a scale from 1 to 15 (1 is the lowest & 15 is the highest). Consider following criteria:

1. The complexity of the database
2. The usability of the application
3. The organization of the presentation
4. The relevance of the demo

Try to be as objective as possible.

(*) For teams with only a single member, please consider that they are deliberately working alone while grading.
